

GAURAV

FULL-STACK DEVELOPER • SAAS SYSTEM DEVELOPER • SYSTEM ARCHITECT

Gurugram, Haryana, India | gauravquest00@gmail.com | github.com/gauravquest00-create | linkedin.com/in/gaurav-verma-10b287248

PROFESSIONAL SUMMARY

Results-driven **Full-Stack Developer & SaaS System Developer** with strong expertise in architecting multi-tenant web applications, automated lead generation pipelines, and high-performance user interfaces. Proven track record blending deep engineering rigor (React, Node.js, Express, MongoDB) with real-world sales and real estate domain insight to build conversion-focused digital products with sub-second API sync and mobile-first responsiveness.

TECHNICAL SKILLS & COMPETENCIES

Frontend Technologies: React, JavaScript (ES6+), HTML5, CSS3, Vite, React Router, Mobile-First Responsive Design, UI/UX Systems

Backend & APIs: Node.js, Express, RESTful APIs, Google Apps Script, Python, Microservices, Webhooks, JWT Authentication

Databases & Cloud: MongoDB, MongoDB Atlas, MySQL, SQL Server, Relational & Document Data Modeling, Vercel Edge Hosting

Developer Tools & Methodologies: Git, GitHub, Postman, Fast2SMS, Twilio, AI-Assisted Engineering, Agile Execution, Performance Optimization

FEATURED PROJECTS & SAAS SYSTEMS

DealNexis CRM — *Multi-Tenant Real Estate CRM Platform* | **React, Node.js, Express, MongoDB**

- Architected an end-to-end multi-tenant CRM featuring automated lead matching, requirement scoring, and agent commission tracking.
- Engineered smart note capture, voice-to-requirement parsing, and 2-way real-time data sync connecting MongoDB Atlas with Google Sheets.
- Deployed resilient REST API endpoints for seamless third-party lead capture and automated broker workflows.

PropIntel — *Property & Lead Intelligence Workspace* | **React, Vite, JavaScript, CSS3 Architecture**

- Designed an intelligent workspace for real estate workflows to organize property portfolios, buyer requirements, and match metrics.
- Engineered high-performance query filtering operating across complex multi-dimensional datasets with zero layout shift.

LuxuryNest — *Real Estate Portal & Automated Lead Ingestion* | **React, Google Apps Script, Google Sheets, CSS3**

- Engineered a fully responsive property showcase platform featuring automated lead storage directly into Google Sheets.
- Automated email and SMS notifications dispatched to agents immediately upon prospect inquiry, eliminating manual data entry.

NaturalNestOrganic & WebCraft — *D2C E-Commerce & Agency Portal* | **React, Vite, Express, Modern CSS3**

- Built dynamic product catalog, lightweight client-side shopping bag, and agency inquiry portals with custom micro-interactions.

PROFESSIONAL EXPERIENCE

Sales Executive | **LuxuryNest — Gurugram, India**

August 2025 – Present

- Drive sales operations, client onboarding, and property consultations across key Gurugram luxury residential sectors.
- Spearheaded the deployment of dynamic web listing systems and automated Google Sheets lead capture workflows to boost team efficiency.
- Coordinate client relationship management and streamline enquiry handling to accelerate deal turnaround times.

Sales Executive | **Reside Network — Gurugram, India**

September 2024 – August 2025

- Managed end-to-end sales consultations, inventory matching, and site visits for high-value residential and commercial properties.
- Analyzed market trends and client requirement parameters to match prospective buyers with fitting investment portfolios.
- Maintained CRM records, lead interaction histories, and transaction pipelines to ensure accurate performance tracking.

EDUCATION

Bachelor of Computer Applications (BCA)

Lords University, Alwar, Rajasthan | 2021 – 2024

- Core Coursework: Data Structures, Object-Oriented Programming, Database Management Systems (DBMS), Web Technologies, Software Engineering.
